

# A Prayerful Suggestion to the Citizens of Maui, Hawaii

Form a rebuilding cooperative with only local Lahaina fire victim property holders as members

If outsiders want to help, they can donate cash to your cooperative, with no strings attached

The news of the devastating wildfire that struck western Maui's Lahaina area and murdered so many citizens on August 8, 2023 has left us all reeling with more questions than answers, and more than a few "wait a minute" suspicions.

Our sincere prayers are with the victims and their families and loved ones.

Then remarkably, within just days of the fire, Oprah Winfrey emerges bigger than life *while the devastation is still smoldering*.

[World Economic Forum Oprah Winfrey](#), who has amassed 18,000 acres of land in Maui, appeared all over the global news, most of it The City of London Fleet Street British-controlled: Daily Mail, People, CBS, Newsweek, NBC, Sky, BBC, CNN, ABC, LA Times, AP, Reuters, The Guardian, New York Times, Washington Post, Yahoo, The Independent, Time, USA Today, Axios, Fox, AOL, CBC, VOA, Times of India, Australian Broadcasting, Entertainment Tonight, Daily Telegraph, The London Times, yada, yada, yada. Remarkably, [The Daily Mail](#) (UK) provides suspiciously exquisite coverage in far off UK.

The screenshot shows a browser window with the URL [weforum.org/people/oprah-winfrey](https://weforum.org/people/oprah-winfrey). The page features the World Economic Forum logo and navigation buttons for "Join us" and "Sign in". A profile picture of Oprah Winfrey is displayed on the left. To the right of the photo, her name "Oprah Winfrey" is listed, followed by her title "Chairman and Chief Executive Officer, Oprah Media Group". Below this, a detailed biography is provided, mentioning her founding of "Oprah's Book Club" in 1996, "Oprah's Angel Network" in 1997, her work with Habitat for Humanity, her film appearances, her role as an adjunct professor at Northwestern University, and her long-running talk show "The Oprah Winfrey Show". The text concludes with "One of only three women to own her own television and film production studios." At the bottom left of the profile section, it says "Accessed August 16, 2023".

Was this just news coverage or a demonic entertainment event, in advance of various ruses to take over the burned out property for a "Smart City" proposed prior to the fire storm for this space?

Already the propaganda trolls are trying to tamp down the fire raging in the Internet that the motivation for this fire was the previous announcement for a “Smart City” in Lahaina. That right there is a telltale sign that the fire probably is Smart City related.

The [HAWAI'I 2050 SUSTAINABILITY PLAN](#) oozes the Smart City agenda. [Corporations all over the planet](#) are jumping on board to “help” Hawaii be “smart.”

**Hawaii governor Josh Green feigns concern, while signaling a takeover, in the name of not taking over. Nice trick governor. We know how this Hegelian propaganda works now.**

While 1,300 citizens remain missing today (August 16, 2023), [Hawaii Governor Josh Green](#) announced he was thinking about ordering a moratorium on outside investors coming in to sweep up the damaged property, yet paradoxically proposed that the Hawaii government buy it up:

On Aug. 16, 2023, Hawaii Gov. Josh Green said:

“I’m already thinking about ways for the state to acquire that land”

Figure 1: Hawaii Governor Josh Green's current Facebook profile photo, accessed August 16, 2023. <https://www.facebook.com/DrJoshGreen/> | [Backup File](#).

*Ironically, Hawaii includes the British Union Jack in its state flag. Why would an American candidate for an American governorship promote the **British Union Jack** on his Facebook page? Evidently this was a signal of his true loyalties, and not a mistake.*

The preparation for an Oahu land grab is evidently on, supported by the full propaganda coverage of the propagandists of the Pilgrim Society in The City of London.

## RECOMMENDATION TO THE CITIZENS OF LAHAINA

Joe Biden just asked for another [\\$40 billion for the Ukraine](#) on August 10, 2023—two days AFTER the Maui fire. Then yesterday, a week later, he offered to send [each household a piddling \\$700](#).

What an insult, but quite telling of the true Pilgrims Society City of London values and agenda.

### ***We The People* POWER**

We suggest that the citizens of Lahaina consider holding on to all your property deeds and do not sell them to any third party.

**We suggest you form a REBUILDING COOPERATIVE that you control** that will solicit funding from the Ukraine (!), Biden, FEMA, USAID, Red Cross, U.N., NGOs, Trusts, Foundations, Tax havens, DHS, Hawaii government, other U.S. states, donors, etc. that will create a **rebuilding pool** and distribute proportionally to each member's need to help you cover your rebuilding costs **that you manage yourselves. Reject all "help" that wants to control you and seize control of your land and property.**

**Say no** to this demonic Pilgrims Society City of London land grab to build a "Smart City" devoid of spirit, heart and soul. Why do you think your governor flies the *British* flag on his Facebook page?

We are praying for you that you will make the right decisions and preserve your culture and heritage from the demons Mammon and Lucifer.

May God bless you and keep you.
